

*Embassy of the United States of America  
Athens, Greece*

*September 2018*

## **MEDICAL AND DENTAL LIST – OUTSIDE OF ATHENS AND THESSALONIKI**

**Disclaimer: U.S. Embassies and Consulates maintain lists of physicians, health care providers, and medical facilities for distribution to American citizens needing medical care. The inclusion of a specific physician, health care provider, or medical facility does not constitute a recommendation and the Department of State assumes no responsibility or liability for the professional ability or reputation of, or the quality of services provided by the medical professionals, medical facilities, health care providers, or air ambulance services whose names appear on such lists. Names are listed alphabetically, and the order in which they appear has no other significance. Professional credentials and areas of expertise are provided directly by the medical professional, medical facility, health care provider, or air ambulance service.**

The following institutions, individuals, hospitals and/or doctors, have informed the Embassy that they are qualified to practice in the categories specified, and that they are sufficiently competent in the English language to provide services to English-speaking clients. The Embassy has neither the authority nor the facilities to act as a medical grievance committee. If you encounter unsatisfactory services by parties listed, send an email to [AthensAmericanCitizenServices@state.gov](mailto:AthensAmericanCitizenServices@state.gov). Each person listed should bring any errors to the Embassy's attention, as well as any changes in names, addresses, telephone numbers and basic information. The information in this document is updated triennially. All corrections and modifications should be sent to [AthensAmericanCitizenServices@state.gov](mailto:AthensAmericanCitizenServices@state.gov)

Public hospitals operate with skeletal staff over weekends, and it may be difficult to locate a doctor or someone who speaks English. Private hospitals have an appearance more akin to the United States and are more expensive.

Medical fees can vary considerably in Greece. We recommend that clients inquire about fees in advance. Patients should settle all bills in euros and request a formal receipt.

**For LIFE or DEATH emergencies dial 112**
